INTRODUCTION

This is a quick and easy process.

TOOLS:

- [Phillips #00 Screwdriver](#) (1)

PARTS:

- [Compatible Replacement](#) (1)

Step 1 — Battery

- Push in the tab on the battery and lift up. The battery should detach very easily.

Step 2 — Disk Drive

- Rotate the computer so that it is upside down and you are facing the rear panel with all the connection ports.

Step 3

- Using #00 screwdriver, unscrew locking screw.
- Push in on button directly beneath screw. A tab should pop out as shown in picture 2.
- Pull out on tab to remove disk drive.

To reassemble your device, follow these instructions in reverse order.
